Dear Mr. Coffman:

Recent press reports indicate that it is your intention to announce the results of testing of Colorado's voting systems by February 22, 2008.

We are looking forward to participating in this process, and to an increased level of transparency.

1. What procedures will you use to ensure that issues raised by private sector electors are not swept under the carpet?
2. What procedures will you use to ensure that the public can timely oversee the process and comment/challenge the procedures and/or results?
3. Will the SCORE II project be included in this new effort?
4. Will Automatic Signature Verification equipment be included in this new effort?
5. When can we anticipate access to the withheld certification documentation?

Thank you very much for your prompt reply.
